

ΘΕΜΑ 1. ΚΑΤΑΝΟΗΣΗ ΓΡΑΠΤΟΥ ΛΟΓΟΥ

Read the text and decide if each statement (1-10) is True (A) or False (B).

People can learn new things all over their lives, but boys and girls must go to school up to the age of 15. Students cannot stop classes before this age, but they don't have to go school after the age of 15. When students in Greece finish Junior High School, which usually happens at the age of 15, they can stop school, they can go to a Senior High School or they can go to a Vocational High School (EPAL). Almost every town has a Senior High School. In EPAL students learn practical things about technical jobs, for example the job of a mechanic. Only cities and big towns have an EPAL school. Students may have to go to an EPAL far from their houses if they want to learn about the job they like.
